

WBoP PHO Health and Wellness Nursing Services. Refer via referral

General Practice outreach support for Whanau and other High Need
All services include Kaupapa Maori nurses .

Service activity

Health target related activity for patients who have not responded to three or more attempts at engagement from general practice

Between GP visits.
Supplementary monitoring and/or self management support e.g. patients with heart failure, hypertension, diabetes, DCIP

Home visit follow up for complex patients with recent acute admission (may reduce readmission rates)

Whanau cancer psychosocial nursing support (Support for whanau with a confirmed diagnosis of cancer who require specialist intervention or palliative).

Service activity

Helpful for whanau who
live alone or
have misunderstandings
or
may not be attending their specialist appointments

Support to patients and whanau,
Provision of time for fuller explanations,
Co-ordination of care,
Arrangement of transport,
Completion of advanced care plans (future care plans)
